

OUR EXHIBITIONS

The Museum has two exhibition galleries. The first traditionally housed a permanent collection, while the second housed our temporary exhibitions.

Things are changing as we explore new ways of telling our story and explaining our heritage. We believe that it is also important to tell the story of Frome's place in our national story and in the wider world.

We are exploring new technologies. Our **Frome Time Line** has just gone digital. We are also considering the potential of new mobile technologies and social media.

We involve local collectors. Here our **Cabinet of Curiosity** is popular. Displays change monthly and collectors of all ages are telling us about the things they collect and what this means to them.

Frome Heritage Museum is changing fast. We have embarked on a Development Project. The plan is to restore our iconic building and to improve the facilities we offer to our visitors, researchers, school parties and other groups.
